The American Express Company has our thanks for its daily favors in the shape of the very latest eastern papers.

THE SIXTEENTH REGIMENT .- This fine Regipreceded by the splendid Silver Bugle Band Spaulping from Springfield, marched, yesterday afternoon, to the front of the State House, to hear an address from Adjutant General Carrington on the reception of a flag for the Regiment.

The address of General Carrington was animated and patriotic, and the soldiers of the Sixteenth Regiment cheerfully renewed the obligation, which he administered to them, to be faithful to the Flag of their Country.

After General Cannington had concluded, the Regiment was addressed by Governor DENNISON in a few brief, but very eloquent and appropriate remarks. Among other things, he told the citizen soldiers gathered before him that the present war was not a war against any State or the institutions of any State; that it was not designed to humiliate one section of our common country or to subordinate it to the other; nor was it a war to advance | teers. the policy of one political party in preference to that of another; but that it was a contest for maintaining and preserving the liberty and the glorious Union our fathers had bequeathed us. These and similar noble and patriotic sentiments caused the Governor to be heartily cheered at the end of almost every sentence in

The Regiment then returned to Camp Jackson-The officers and soldiers composing it, are a fine looking set of men, and will, we doubt not, do good service on the field of battle, if they should ever be put to the test. The number of men belonging to the Regiment is 935 rank and

Those officers who will consult our practical philosopher, Mr. Cuttos, and follow his counsel, will find themselves in such substantial and graceful uniforms as will be an honor to the corps in which they serve, and a source of lasting gratification to themselves and their friends. TO THE PUBLIC.

The undersigned, practical Watchmakers and dealers in Watches, having bought and sold American Watches for a number of years past, and having dealt in all kinds of foreign Watches for a much longer period of time, beg to state that they have never dealt in Watches which, as a class, or in individual instances, have been more satisfactory to themselves or customers, whether in respect of durability, beauty of finish, mathematically correct preparations, accurate compensation and adjustment, or of fine time-keeping results, than those manufactured by the Waltham Company.

THE ONLY PREPARATION

STOOD THE TEST OF YEARS. and grows more and more popular every day!

And testimonials, new, and almost without number, might be given from ladies and gentlemen in all grade of society, whose united testimony none could resist that Prof. Wood's Hair Restorative will restore the hald and gray, and preserve the hair of the youth to old age, in all its youthful beauty. Battle Creek, Mich., Dec. 21st, 1856.

Prof. Wood: Thee wilt please accept a line to inform thee that the hair on my head all fell off over twenty years ago, caused by a compilicated chronic disease, at tended with an eruption on the head. A continual course of suffering through life having reduced me to a state of dependence, I have not been able to obtain stuff for caps, neither have I been able to do them up, in consequence of which my head has suffered extremely from cold. This induced me to pay Briggs & Hodges almost the last cent I had on earth for a two dollar bottle of thy Hair Restorative, about the first of August last. I have faithfully followed the directions, and the bald spot is now covered with hair thick and black, though shert. It is also coming in all over my head. Feeling confident that another large bottle would restore it entirely and permanently. I feel anxious to persevere in its use, and being destitute of means to purchase any more, I would ask thee if thee woulds not be willing to send me an order on thine agents for a bottle, and receive to thyself the ecripture declaration—"the reward is to those that are kind to the widow and the fatherless."

Pror. O. J. Wood: Dear Sir.—In the latter part of the year 1852, while attending the State and National Law School of the State of New York, my hair, from a cause unknown to me, commenced falling off very rapidly, so that in the short space of six months, the whole upper part of my scalp was almost entirely bereft of its covering, and much of the remaining portion upon the side and bace, part of my head shortly after became gray, so that you will not be surprised when I tell you that upon my return to the State of Indiana, my more chasula acquaintances were not so much at a loss to discover the cause of the change in my appearance, as my more intimate acquaintances were not so much at a loss to discover the cause of the change in my appearance, as my more intimate acquaintances were not so much at a loss to discover the cause of the change in my appearance from them that my hair would again be restored, I was forced to become reconciled to my fate. until, fortunately, in the latter part of the year 1877, your Restorative was recommended to me by a druggist, as being the most reliable business men to secure a profitable manufacture of my fate. until, fortunately, in the latter part of the year 1877, your Restorative was recommended to me by a druggist, as being the most reliable business men to secure a profitable manufacture constant and projectation.

The manufacture co desired effect. Since that time, I have used seven dol-lars worth of your Restorative, and as a result, have a rich coat of very soft black hair, which no money can

As a mark of my gratitude for your labor and skill in
the production of so wonderful an article, I have recommended its use to many of my friends and acquaintances,
who, I am happy to inform you, are using it with like
